

SEARCH FOR REAL ESTATE MAN HAS BEEN ABANDONED

Not Even Slightest Clue is Given as to Whereabouts of W. B. Crawford.

BLUFFS AND SLOUGHS SEARCHED

His Friends Do not Believe that He will be Seen for Some Time.

Nothing further has been heard of W. B. Crawford, who suddenly disappeared on May 14th. The Mounted Police have instituted a diligent search, but have heard nothing of the missing man. Those in charge of detachments in this vicinity and in fact every part of the province have been notified of the disappearance of Mr. Crawford, and have given much time to scouring the country. Not the slightest clue has been given and those most interested are at a loss to know what could happen to him, or how he could disappear so suddenly and leave no trace of his whereabouts. Some are inclined to believe that he did not leave here on his own accord, which would indicate that he was forced to leave unexpectedly or was kidnapped in a sense and was taken away. The bluffs and sloughs in the immediate vicinity of town have all been searched, the fear being entertained that he may have met foul play.

It is not thought by those more intimately acquainted and connected with Mr. Crawford that he will ever show up and efforts to locate him have almost been abandoned. The Mounted Police, however, are still following the course started shortly after his disappearance. Constable Wilson, at though he has absolutely no clue as to which work is leaving no stone unturned to gather some information as to the missing man.

Mrs. Crawford, who was greatly affected by his sudden disappearance, has almost given up hope of seeing her husband again, yet cannot explain where he went, why or when, or how. Other members of the family are equally "nonplussed" and have settled down to managing the different businesses Mr. Crawford had in charge here. Some, who are inclined to form an opinion of their own from the mysterious circumstances connected with his strange disappearance, think that Mr. Crawford carefully planned to leave, but for what reason these people are unable to explain.

The matter must remain a mystery for the present, but it is thought that sometime, perhaps soon and perhaps not for years, it will be solved and that the facts in connection with the disappearance of so prominent a man will become known. Yet in view of suspicion at present the idea of foul play is uppermost with many.

VICTORIA DAY PASSED OFF QUIETLY HERE

Victoria Day passed off very quietly here, the majority of local people going to the country or nearby lakes to pass the day. Several motor parties spent the day at Irma, a few went to Vermilion, and many drove to Clear Lake. No celebration of any kind was held here which accounted for so many being out of town.

A meeting of the Hospital Union will be held in the Council Chamber on Monday next at 2:30. All members are requested to be present.

Mrs. R. B. Campbell returned here yesterday from Edmonton, where she visited her friend, Mrs. A. J. Vallee, at 449 Pleard Street.

WAINWRIGHT OIL FIELDS WILL BE DEVELOPED WITHIN THIRTY DAYS; STOCK NOW ON MARKET

There is no abatement in the oil craze and more than one hundred different companies have placed stock on the market at prices ranging from 5 cents to \$1.00, the par value in almost every case being \$1.00. The Dingman well is continuing to spout and the stock is selling at prices ranging from

\$100 to \$175. Black Diamond, which three weeks ago was selling at \$3 per share, is now quoted at \$5.50. The price of shares in other companies is rapidly advancing and the larger centres are seeing the most exciting times in their history.

A company has been capitalized, which it is understood will be known as the Grattin Coulee Oil Co., that will drill for oil within ten miles of Wainwright. Those interested in the company state that drilling operations will start inside 30 days. Stock has been placed on the market at 50 cents per share, the par value

being \$1.00. Messrs. Taylor & Morris, who visited here a short time ago, are back of the company. No further particulars are known.

The Grattin Coulee runs into the Battle River, west of the G. T. P. Bridge, and thousands of acres in that vicinity have been filed on for oil and mineral rights. The exact location of where operations will start is not yet known, it is being understood that it is at a distance of three miles south-west of the bridge which spans the river on the G. T. P.

Local people have faith in the Wainwright oil fields and are awaiting announcements.

The Wainwright Star

VOLUME VI

WAINWRIGHT, ALBERTA, WEDNESDAY, MAY 27th., 1914

NUMBER 34

EDMONTON MAN SENT UP CHARGE HOUSE BREAKING

Gained Admittance to Merchants Bank and was Arrested.

In the early hours of Friday morning the 22nd, inst. the premises above the Merchants Bank were broken into by a man giving the name of George Williams of Edmonton. Mr. James was in bed and states that he heard someone try the door leading out to Second Ave., which was locked and a few seconds afterwards he heard someone coming up the back stairs and into the building. In a few minutes he got up and taking his revolver with him went out to the landing and found the man sitting on a trunk. Mr. James covered him with the revolver and Williams began using abusive language. A. Kenny, the call boy at the roundhouse was passing on his bicycle and Mr. James called to him to bring the night watchman, which he did. Williams was arrested and lodged in the fire-hall. He was brought at 10:30 o'clock that morning before Magistrate Ross and returned for trial on a charge of house-breaking with intent to commit an indictable offence. It is probable that he may be tried here before Judge Lees at the sitting of the District Court to be held on June 24th, 1914. Robert Hunter appeared for the prosecution.

WANTED ON CHARGE OF HORSE STEALING

Constable Wilson took Williams to Fort Saskatchewan Sunday, and it is understood that he is wanted in Edmonton as well for horse stealing. He answers to the description of a much wanted man and he may be tried on this charge after that for which he was arrested is disposed of.

The local bandmen are practicing diligently twice a week and it is expected that they will have made sufficient progress before long to make a creditable showing on Dominion Day.

An auction sale of farm stock, implements, household effects, etc., will be held at Edmonton on Saturday, May 30th. J. C. McLeod is the auctioneer in charge and R. B. Hinton will act as clerk.

Among those to visit Vermilion on Victoria Day were G. C. Siddall, A. W. Cuddall and Harry Coffel. They drove to Vermilion and returned here Monday night.

Mr. and Mrs. S. E. James and infant child arrived here from Edmonton on Sunday. Mrs. James is in good health and the couple have been recipients of many congratulations since their return.

WILL GRANT SITE ON CERTAIN CONDITIONS

G.T.P. will Grant Site Providing \$10,000 Hospital is Erected.

In reply to a letter enquiring about a free hospital site, the board of trade has received information stating that providing a building costing at least \$10,000 is constructed reservation will be made on land east of the old wye. The 1911 council board made a request for free property from the G.T.P., and in the petition it was stated that a hospital costing \$10,000 would be built.

COUNCIL PLANS NEW SYSTEM OF SCAVENGING

Certain Councillors would License Men to Do Work Town is Doing Now.

The council is contemplating something new and is considering a scheme whereby scavengers will be licensed and controlled by this means to do the work now being done by the town scavenger. Considerable dissatisfaction is prevalent, certain members of the council claiming that this is directly due to the system in force. Whether or not the present system will be changed remains to be seen.

At the last council meeting a by-law governing a new scavenging system was read and it was after this that the council decided to consider operating this department along different lines. The by-law recommended the bucket system for scavenging, and other suggestions were outlined in the by-law providing for improvement in the present system.

Complaints that have come to the ears of Secretary Kenny and members of the council would indicate that improvements in the present system are badly needed and whether or not it is in this or the scavenger that the trouble lies is being investigated at present. It is expected that the next few days will see a shakeup in this department.

LADIES AID BAZAAR

Members of the Methodist Ladies Aid met at the home of Mrs. Fraser, Third Ave., on Friday afternoon last and practically completed sewing for the bazaar. As usual a lunch was served before the members left for their homes. The bazaar will be held on Saturday June 6th, and the last gathering will be held on Friday afternoon of this week at the home of Mrs. F. D. Laird, Fourth Ave.

R. E. Gough, formerly of the Merchants Bank staff here, spent the holiday visiting Mr. and Mrs. W. S. Clark and while here renewed many old acquaintances.

LOCAL INVENTOR NOW PERFECTING AIRSHIP DEVICE

Jacob Goshing Working on Plan to Prevent Death in Accidents.

Jacob Goshing, the local inventor of more or less fame, is now working on an invention for biplanes and monoplanes to safeguard airmen when their machines go out of commission while flying through the air. The device is attached to the base of the base of the machine and by simple methods a pair of legs are controlled by the man above and these are spread out in such a fashion that when the machine strikes the ground no serious results will follow.

Mr. Goshing is also perfecting a device for wheeled vehicles, his first invention along these lines not proving very successful. He claims for his invention to secure letters patent, a series of springs attached to wheels of vehicles for affording resiliency of same.

MINISTER MILITIA SUGGESTS FIELD BATTERY SQUAD.

Advices this Because there is a Shortage of Field Artillery in Alberta.

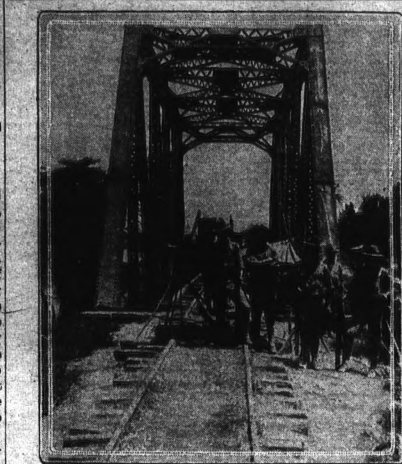

Sometimes ago a movement was started here to organize a squadron of horse in the vicinity of Wainwright, and information has been received from the Honorable Minister of Militia by local people to the effect that owing to the number of Cavalry regiments already organized in Alberta, Militia requirements of this province as far as Cavalry and Mounted Rifles are concerned would appear to be complete.

According to the Minister's letter, there is a shortage of field artillery throughout the west and the question is asked whether or not it would be better to organize a Field Battery in this vicinity. At the present time, nothing can be done, since no provision has been made in the estimates for new units in Alberta. Colonel Hughes advises that the matter be taken up in September next when estimates for the next financial year will be prepared.

In the event of a Field Battery being organized, drill sheds and other buildings will need to be constructed and those interested are of the opinion that the organization of a regiment of Field Artillery would mean more to Wainwright than a regiment of Mounted Rifles.

T. G. Cook was operated on this week in Edmonton for gall stones and is reported to be progressing. His condition on Sunday was serious and caused his friends much anxiety.

ONE BRIDGE MEXICANS WILL NOT BLOW UP

This is the railroad bridge at La Tréjor, a few miles outside of Vera Cruz and considered one of the most strategic points in the vicinity of the Mexican port. At La Tréjor is situated the water plant which supplies the city with drinking water. Also at this point the railroad runs directly into the high hills. The bridge is across a rather deep gorge and its destruction would mean a considerable delay for the American army in case a march was ordered on Mexico City.

SONS OF ENGLAND ATTENDED CHURCH SUNDAY EVENING

The Sons of England held their annual church parade on Sunday evening and marched to St. Thomas' church where they were addressed by Rev. T. F. Marshall. The procession was led by the Cadet Band, followed by the Cadets and Girl Guides in uniform. The Daughters of the Empire were in waiting at the church. A forcible sermon was preached by Rev. T. F. Marshall, after which the procession returned to the I. O. O. F. Hall by Fourth Avenue. The band music was good and the appearance of the Cadets and Girl Guides remarkably smart and attractive.

MAGISTRATE DISMISSED CHARGE AGAINST MAN FROM KINSELLA

A few days ago Magistrate Ross tried a case from Kinsella in which one George Beschell summoned S. Smith for assault. From the evidence it appeared that the complainant was working for Smith and on Sunday April 26th, he was asked by Smith to repair a door which he refused to do. An argument ensued and it was alleged by Beschell that Smith assaulted him and threatened to cut his head off. The evidence which was corroborated to a certain extent by Mrs. Beschell and two sons was denied by Smith. The Magistrate dismissed the charge on the ground that it was insufficiently proved that an assault had been made by Smith. Robert Hunter appeared for the defendant.

AT THE ELITE FRIDAY EVENING

A dramatic story of wonder moving occurrences, such as a mine explosion and the sinking of a whole village into the bowels of the earth. It consists of an unusually realistic portrayal of a fire in a coal mine, a miner's torch having come in contact with a newly discovered oil well, and the crowning triumphs of big scenes, the destruction of an entire village, when the walls of the mine over which it is built begin to crumble. Here we see whole houses sink into the earth, the panic-stricken villagers, and lastly the fire that follows the cave-in and completes the destruction.

These scenes of the conflagration, and the people huddled about the camp fires on a safe spot are remarkably examples of night photography, and deserving of the highest praise. All in all, "Through Fire to Fortune" marks a distinct step in the productions of features, and should not be missed.

HAS FAITH IN TOWN, BUT CAN'T EXTEND LOANS FOR PRESENT

According to Mr. H. H. Ball president of the Home Investment Loan Co., who was here last week appointing a new representative to succeed W. B. Crawford, loans on town property will not be granted freely. Mr. Ball states that he has great faith in the town, but cannot see his way clear to loaning large amounts until the money market situation shows improvement.

The town is calling for tenders with this issue for the delivery of 100 yards of gravel for use on the streets. With other work to be done, Main Street will be put in better shape.

EARLY START WILL ENSURE SUCCESS OF CELEBRATION

Athletic Association is Dead and Board of Trade Being Looked to.

Nothing has as yet been done towards celebrating Dominion Day here and the question is being asked by many interested parties as to who will have charge of the preparations and day's programme. The question is one that should be important.

Wainwright is unfortunate in not possessing an athletic association, this organization having passed out of existence two years ago when semi-professional baseball was attempted. Previous to last year, the July 1st celebrations were under the direction of officers of the athletic association, and a year ago the council granted \$250 to the board of trade with which to make arrangements for a celebration. The day was celebrated and a small surplus resulted.

The situation is an easy one to overcome, providing the right parties take the matter in hand. It would appear from last year's experience that the board of trade would make a wise move in taking charge of arrangements and the day's programme.

IRMA CELEBRATED BUT WAINWRIGHT BALL TEAM DIDN'T

Irma celebrated on May 26th, and a large number of people from the country attended the different lines of sports on the day's programme. Baseball was the main feature of the day, the prize of \$50 being won by the Viking Baseball Club. The board of baseball witnessed was not of the best by any means, neither Irma or Viking playing anything like the ball they usually do. The second game was played with Strawberry Plains in which Viking won by a big score.

It was expected that Wainwright would go up for the celebration, and posters announced that the local baseball team would be on hand to play in the tournament. The local boys, however, did not make the grade and the result is that the ball players at Irma are firm in asserting that they have visited Wainwright for the last time. They state they will not play here on Dominion Day, no matter how strong the inducements may be that are offered.

This is the second time that Wainwright has disappointed the Irma ball players and it is little wonder that they feel put out over the way they have been used. Explanations made by the officers of the local club that a large number of the players were out of town and could not possibly play on that day. The excuse however good, will not satisfy the Irma ball fans and they are determined to give Wainwright a wide berth in regard to match games this season.

A very pleasant evening was spent at the home of Mr. and Mrs. H. W. McLeod on Thursday evening last, when about twenty gathered to honor Mr. and Mrs. W. E. Simmons, previous to their departure for Mirror, where Mr. Simmons has been appointed to the position of chief dispatcher.

Sir Arthur Conan Doyle, creator of the "Sherlock Holmes" adventures, and Lady Doyle will visit the west soon and will pass through Wainwright and the National Park here on their way to the mountains.

Farmers are reminded that beginning next week all stores will close Thursday afternoons, during June, July and August, and at 6 p.m. each day commencing June 1st.

SPEEDY WIRELESS
SEEMS POSSIBLE

PROGRESS IN WIRELESS TELEPHONY GIVES PROMISE OF GREAT DEVELOPMENT

New Scheme Reasonable to Expect That Some Day Speech Transmission From England to America Will Be Effected by the Perfection of Wireless System.

In a lecture delivered at the Royal Institution, London, Dr. J. A. Fleming, F.R.S., described the inventions which of late years have rendered possible the transmission of speech by means of the use of the telephone and the wireless system, and have permitted the use of the telephone and the wireless system for the transmission of speech.

The lecturer explained that in the case of a telephone the shortest wave length is the greatest velocity with which the waves travel, while the amplitude of the waves attenuates to a greater extent than that of the longer ones.

Hence when, as a result of speaking to a telephone transmitter, a complex electro-motive force is applied to the end of a cable, the various simple harmonic waves into which the impulse may be resolved travel along the cable with unequal speed and the shorter waves travel fastest.

But when a speech signal is sent by a wireless system, the waves are not so affected.

Advancing to Prof. Pupin's remedy for the distortion of articulated sounds was first suggested by Mr. Oliver Heaviside, who, some twenty-five years ago, showed that waves of all lengths could be made to travel at the same speed and attenuate the same rate.

An important advance was made by Prof. Pupin's suggestion that the cable with its sheath could be put into practical use by winding it on iron wire cores, inserted at equal intervals, but so close that the distance of one wave length of the average wave frequency, which is always taken at 400.

If the coils are placed farther apart relatively to the wave length they do more harm than good, and the sheath, underground cables, and submarine cables can all be treated in this way.

New York to Denver, 2,000 miles, which permits good speech, and these plans are the ambition of the American Telephone and Telegraph Company to complete.

PRESERVING CATSUP

Government Report Says 74 Per Cent. Contain Benzene of Soda.

A bulletin from the laboratory of the United States Department of Agriculture, dated June 1, 1915, states that the examination of 70 samples of tomato catsup sold in Canada shows that 74 per cent. of the samples contain benzene of soda in the form of benzoate of soda.

The amount of solids in a number of samples was very low. There is, however, no definite standard for catsup in this country and the analysis shows a great variation in the quality of the samples.

The use of benzene of soda in catsup is not harmful to health. It is, however, a preservative and its use in catsup is not recommended. The use of benzene of soda in catsup is not recommended.

WORLD WIDE SPREAD OF DISEASE

May Follow the Panama Opening, Declares Harvard Medical

Man. Fear that the opening of the Panama canal may be followed by a world wide redistribution of yellow fever and cholera which will threaten the Philippines and later the United States, was expressed by Dr. Richard P. Strong, head of the Harvard Medical School, in a lecture given at the Harvard Medical School.

Dr. Strong was formerly at the head of the government biological laboratory in the Philippines and later the Harvard medical expedition to Peru, where an extensive study of tropical diseases was made.

"The trouble to be feared from the spread of tropical diseases by traffic through the Panama canal is not so much the spread of yellow fever and cholera, as rather heavy financial losses through disturbance of trade between any great loss of the canal industry of the United States, which is now being made by the Panama canal."

Dr. Strong declared that the Panama canal is now being made by the Panama canal, which is now being made by the Panama canal.

ALBERTA COAL INCREASE

RAPID DEVELOPMENT OF THE INDUSTRY IN NORTH AND SOUTH PART OF PROVINCE

The Edmonton district is reported to have the largest coal fields in the Dominion. The Crown's West Park holds first place in Alberta as an output.

The very rapid development of the coal industry in Alberta is shown by figures which have just been published regarding the operations of coal mines in the province in 1914. Total coal mined in Alberta during 1914 numbered 4,204,346, being an increase of 1,000,000 tons over 1913.

FARM BOYS WILL COMPLETE

Twenty Prizes Will Be Offered at Brandon Winter Fair

During the recent winter, J. D. McGeorge, president of the Manitoba Winter Fair Association, made an announcement that, in order to encourage the boys on the farm and to stimulate the interest in the raising of animals for the market, \$1,000 would be offered in prizes at the 1915 exhibition for best animals raised and exhibited by boys under 17 years of age.

This announcement created great enthusiasm among young and old. President McGeorge and Secretary Spauldine to Winnipeg at the invitation of the Canadian Bankers' association, when that body unanimously agreed to contribute the sum of \$1,000 for the boys' competition for best steers or half-cows raised in 1914, to be exhibited at the Manitoba winter fair, March, 1915.

This magnificent grant will be an asset to the fair, which is the purpose of encouraging the farm boys of Canada, and, above all, to the New Zealand stationers, believed to be the best of the country, and the fair will be a live-stock breeding and fitting market. The competition is open to the Dominion, and it is expected that no less than 100 boys will compete.

The \$1,000 is divided into twenty prizes, the first being \$100, and gradually dropping to five prizes of \$25 each. In addition, the winner of the first prize will receive a gold medal.

WOLVERINE ADDED TO ZOO

Splendid Specimen Captured by Old Timer in the Rockies

There has just been added to the Bunt Zoo one of the most important specimens of the animal kingdom during recent years. The new addition is a splendid specimen of the wolverine

WAINWRIGHT ALTA., WEDNESDAY MAY 27th. 1914

MINISTER OF EDUCATION COMES IN FOR DESERVING PRAISE.

THE WINNIPEG FREE PRESS is an admirer of Alberta's system of education and makes no hesitation in proclaiming its good features, the cause of which probably arising out of the fact that Manitoba's system of education is far from being perfect in certain respects. Those who can judge by comparison from a distant province sometimes, and in fact generally, arrive at a sensible conclusion. In part the Free Press says,—

"The Hon. J. R. Boyle, Alberta's minister of education, has taken a bold and courageous stand for educational efficiency. Notably he has refused to grant teaching certificates or permits to applicants who have an imperfect command of the English language, incurring and knowing that he would incur considerable hostility by so doing."

The policy the Hon. Mr. Boyle has pursued and is still pursuing is one that cannot help but meet with approval from both political parties of this province. Whether or not the Minister of Education is a college graduate with handles to his name does not matter if he follows a course that has shown so many good results. The Free Press makes no mistake in commending the Hon. Mr. Boyle for refusing to countenance applications from those who have not mastered the English language perfectly, and this part of a wise policy will go a long way towards increasing the efficiency of the government's educational policies.

DISCONTINUE USE OF CONTRACTION IN WRITING NAME OF PROVINCE.

THE CONTRACTION FOR ALBERTA, commonly written "Alta.", will no longer be continued by the Post Office Department of the Dominion, and the idea is a good one for many reasons. A campaign has been started in this province to do away with this contraction, the claim being made that it is not too long to be used in full, that it is significant and euphonious and may become a trade mark of great value in marketing the products of the province.

If for no other reason than the beauty of the word, the name should be spelled in full. It does not require much more time to write "Alberta" than it does to pen "Alta.", and between the two there is certainly a wide difference. For publicity purposes, the name of the province should be spelled out. Outsiders sometimes do not understand that the contraction stands for the richest province in the broad Dominion.

The people here as well as elsewhere should discontinue the contraction of so beautiful a name and write the word "Alberta" in the blackest and plainest type possible.

DISCOVERY OF OIL WILL MEAN MUCH FOR ALBERTA.

IN THEIR MAD RUSH AND EXCITEMENT over oil stocks, the people of Alberta at present do not and in fact cannot sufficiently realize what the discovery of oil in this province will mean. In the first place it will mean that new natural resources will be developed and increased wealth added as a result of development along lines that in other places has proved productive of great wealth.

Calgary is not the only centre that will be affected by the oil strike by any means. Effects will appear noticeable in every corner of the province and those results are already being felt, even in Wainwright which is hundreds of miles distant from the scene of present operations. Thousands of people are flocking to the cities to speculate in oil and this will undoubtedly mean much for the province. It will serve to locate and hold more of the better classes,—men who have money and who are willing to help develop the country.

The discovery of oil will make millionaires out of some to be sure, but it will make a bigger and better province as a result of the many new settlers who will come into the country.

THE ABOLITION OF CAPITAL PUNISHMENT.

FROM THE PULPITS AND THROUGH THE PRESS the subject of death penalty versus life imprisonment is being discussed widely as a close follower on the death John Krafchenko will meet next month for the murder of a fellowman. It is noted in many instances that the view taken of capital punishment is not as pronounced as it was some years ago, when the law took its own course and when petitions were infrequent and seldom effective.

In the case of Krafchenko, however, there is not a single reason why he should not meet the fate his judge has been responsible for. He is an example of a man that should be done away with to preserve society. His life has been a series of crimes since he was able to imitate the actions of criminals. He has carefully planned since his youth the details of a course which has led him to the gallows. The development of society demands his death. His life of violence is not deserving of any consideration from those who live around him.

Krafchenko's case is not one without precedent. Hundreds of crimes have been committed in Canada for which criminals have paid the maximum penalty. Their death has been a credit to the laws of the state, yet when it is considered that many have laid down their lives for a crime they did not commit there is little wonder that the agitation is becoming more general for life imprisonment.

From what the public can judge from the magnitude of the agitation against capital punishment it would not appear that the time is very far distant when death penalty will become a thing of the past. Ample grounds are furnished for the consideration of such a course and the abolition of capital punishment, it is believed, would meet with approval from the majority of Canadian citizens.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Macleod, Cochrane and Alberta, and the Yukon territory, the North-west Territories and in a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,500 acres will be leased to one applicant. An application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the land applied for shall be staked by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal raised and pay the royalty thereon. If the coal mining rights are not operated, such returns shall be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. COBY, Deputy Minister of Interior

OUR HOME WOMEN HAVE BEAUTIFUL HAIR

Next time you go to the theater or to the "movies" just notice, if you please, how many of our home ladies have beautiful hair—glossy, lustrous, and well-dressed. Then, if you will pick out five or ten of those whose hair seems to be particularly pretty and will ask them what they use on it, we feel sure that at least more than half of them will say "Harmony Hair Beautifier."

It is fast becoming the rage with both men and women who are particular about the appearance of their hair. Sprinkle a little Harmony Hair Beautifier on your hair each time before brushing it. Contains no oil; will not change color of hair, nor darken gray hair.

To keep hair and scalp dandruff free and clean, use Harmony Shampoo. This pure liquid shampoo gives an instantaneous rich lather that immediately penetrates to every part of hair and scalp, insuring quick thorough cleansing. Washed off just as quickly, the entire operation takes only a few moments. Contains nothing that can harm the hair; leaves no harshness or stickiness—just a sweet cleanliness.

Both preparations come in odd-shaped, very ornamental bottles, with spritzers tops. Harmony Hair Beautifier, \$1.00. Harmony Shampoo, 50c. Both guaranteed to satisfy you in every way, or your money back. Sold only at the more than 7,000 Retail Stores, and in this town only by us.

JOHN DEERE IMPLEMENTS

The New Deere Gang

The Only Plow That Has Both
Foot-Lift and Hand-Lift

Besides, you'll find that the very name "John Deere" on any plow means a faster, better plow in service and durability. There is no plow made that has a better or easier Foot-Lift than the New Deere, and it also has a superior Hand-Lift. It is the only plow that a boy can lift out of the ground while the horses are standing still.

The New Deere Gang is the only plow that can be controlled perfectly while working. The cutting blades lift the New Deere Gang from the ground, the lifting levers on either side and you can raise the plow without getting on the seat. Lift the blades above ground instantly, but easily and in a perfectly controlled manner. This is due to the peculiar construction of the bottom. Our expert mechanics make the highest grade plows that have been made in the world, and we have shaped our plow bottoms to give the finest penetration with the least draft.

Other features of the New Deere Gang are—Adjustable seat—Better seat used in construction throughout—Ease of maintenance—Heavy-duty wheels—Good high wheels—Easy running—Runs on oil. Equal distribution of weight on each wheel. Many other features, which we will tell you about if you will call on us and look over Deere's lines.

MAKES OLD PEOPLE STRONG AND WELL

We want to get the news to all old people about Rexall Olive Oil Emulsion, a remarkable new food-medicine which we firmly believe is the best remedy ever made to overcome the weakening, debilitating effects of increasing old age. It helps to rebuild wasted tissues, strengthen the nerves, and give new energy and a lively feeling to the body. It contains no alcohol or dangerous drugs. It may not make you feel better for a few days, but if you do not feel much better and stronger before you have taken a quarter as much as you have of other medicines that have not helped you, we will gladly give back your money.

Rexall Olive Oil Emulsion contains pure Olive Oil and the Hypophosphites which, though they have long been endorsed by successful physicians, are here for the first time combined. The result is a real body, nerve and blood-building food-medicine that we believe is superior to anything else in overcoming debility, weakness and liability to disease, and to tone and strengthen the nerves and enrich the blood. You who are weak and run-down—you who are often troubled by various odd weather ailments, use Rexall Olive Oil Emulsion to get and keep well and strong. It is a sensible, pleasant-tasting aid to renewed strength, better spirits, glowing health. If it doesn't help you, come and tell us and we will give back your money without a word. That is how much faith we have in it. Sold only at the 7,000 Rexall Stores, and in this town only by us.

Your Wages Stop When You're Sick!

You Can Try This Remedy At Our Risk

YOU know what that means—Misery—Worry—Big Bills—Debts! You know you can't afford to get sick. Keeping in good health means food and clothing for you and your family. It's up to you to take care of yourself. It's up to you, whenever you don't feel right, to take something to make you right, to strengthen you, build you up, ward off worse sickness, **protect you and your family!** That thing we have, and in offering it to you we protect you against money risk, by personally promising you that if it doesn't protect you against sickness, we'll give you back your money without a word or question. It is—

Rexall

It Is the Best Remedy

When you are run-down, no matter what the cause. It doesn't merely stimulate you and make you feel good for a few hours, but takes hold of the weakness, and builds you up to a healthy, normal condition.

It is a real nerve-food tonic, a real builder of healthy nerves, rich blood, strong muscles, good digestion.

It contains the Hypophosphites, to tone the nerves and give energy, and pure Olive Oil, to nourish the nerves, the blood, the entire system, and give vitality, strength and health.

It is pleasant to take, the creamy flavor of the Olive Oil having been removed.

For you who are tired out, nervous, run-down, debilitated, weak, emaciated—for convalescents—for old people—for young children—we recommend Rexall Olive Oil Emulsion as the best medicine we know of to make and keep you well and strong.

Olive Oil Emulsion

We Make Our Living

out of the drug business right here in your town. It is our duty to give you the best remedy we can for whatever ailment you may have, and business sense demands that we recommend nothing unless we know it's good.

We know Rexall Olive Oil Emulsion is good. We believe it is the best builder of health, energy and strength there is made. We know it is greatly helping many of your neighbors. We believe that it will make you well and strong again, and save you money and worry in the end.

We feel it is good business for us to recommend Rexall Olive Oil Emulsion and get you to use it, because we know you'll thank us afterward for making our confidence in it so plain that you didn't hesitate to take us at our word. We also feel sure that once you have used it, you'll be as enthusiastic about it as we are and will recommend it to your friends. Read our money-back guarantee and get a bottle today.

Sold only at the 7,000 Rexall Stores—the World's Greatest Drug Stores—\$1.60 a bottle. Sold in this town only by us.

We Guarantee This Remedy to Relieve and Satisfy You—or Your Money Back

We don't want your money unless Rexall Olive Oil Emulsion really helps and satisfies you. If it doesn't, come back and tell us, and we'll give back your money. We believe it will protect your health—if it doesn't, the money is yours, and we want you to have it.

The Orange Tree

The orange is the longest lived fruit
tree. It begins to bear the third year
after budding and for 100 years it
will yield abundant crops. Orange
trees have been known to attain the
ripe age of 300 years. The orange
requires less care and attention than
any other fruit tree. Its early growth
is rapid. In the first two years it
grows more than in the next
year. This refers, of course, to its
height and breadth alone—its fruit
and consequently its crop in-
crease more rapidly after the first
ten years.

The dealer in antiques was showing
an old violin to a probable buyer.
"Yes," he said, "that is of historical
interest; that is the identical violin
Nero played when Rome was burn-
ing."

"Oh, that is a myth."

"The dealer agreed, saying:
"Yes, it is, and Nero's name was
on it, but has got worn off."

Unaccompanied
"By the way, you were that deal
of Stockley's, weren't you?"

"Yes, I went in with \$10,000."

"How did you come out?"

"None."

"Oh, that is a myth."

"Fate, my boy, is that mysterious
something which leads you to pick
up 400 people in the street, and a
man who has a personal interest in
the homely woman who is making
odd comments about—Detroit Free
Press.

TWO NERVOUS WOMEN

Made Well By Lydia E. Pink-
ham's Vegetable Compound.

Philadelphia, Pa.—"I had a severe
case of nervous prostration, with palpi-
tation of the heart, headache, dizziness,
aching, nervous, rest-
less feelings and sleeplessness."
"I read in the paper where a young
woman had been
cured of the same
troubles by taking
Lydia E. Pinkham's
Vegetable Compound so I threw away
the medicine the doctor left me and be-
gan taking the Compound. Before I
had taken half a bottle I was able to sit
up and in a short time I was able to do
all my work. Your medicine has proved
itself able to do all you say it will and
I have recommended it in every household
I have visited."—Mrs. Mary Johnston,
210 Second Street, Philadelphia.

Another Bad Case.
Ephrata, Pa.—"About a year ago I
was down with nervous prostration. I
was pale and weak and would have hy-
stemic spells, sick headaches and a
pain under my shoulder-blade. I was
under the care of different doctors but
did not improve. I was so weak I could
hardly stand long enough to take my
medicine."

"Lydia E. Pinkham's Vegetable Com-
pound has made me well and happy and
I have begun to gain in weight and my
face looks healthy now."—Mrs. J. W.
Hoskinson, R. No. 8, Ephrata, Pa.

You want special advice write to

GLOBE TROTTER WITH A RIFLE

American Newsmen Afraid and Light-
Hearted Take, to the Open

Read

Walking, walking, walking—across
San Francisco in October, 1912, "Pit-
t" Rice, an American newsmen,
started about the foot around the world
on a full pack across his back and a
Remington rifle in his hand. "Pittie"
the name of the newsmen, who is now
25,000 miles before his return to the
United States about 1916. The un-
doubted excitement and adventure as
well as the educational and healthful
value of the trip for a long time en-
courage "Pittie" to attempt this
globe-trotting feat.

Starting his business career selling
papers, this 24-year-old newsmen has
pursued his calling in many of the
larger cities of the United States.
During his trip around the world he
is supporting himself entirely from
selling the local newspapers printed in
the towns and cities through which
he passes.

Going first to the Hawaiian Islands
and later walking across Australia,
the newsmen, after a long stay in
Africa, left sixteen months after
leaving San Francisco. On a five-day
trip he occurred here. One day the
prime minister, General Louis Botha,
consulted Rice on the back and
during the consultation, Rice could
not find the time without either companion or
financial aid. General Botha remarked
on meeting the young man, "Pittie"
Rice was the first newsmen that had
been privileged to shake his hand.
Rice's real interest, however, was
with prime ministers, General Botha.

Arriving at Johannesburg, Trans-
vaal, one month later—February, 1914
—the young soldier of fortune re-
ceived a warm welcome from the
people. Rice, however, was not
leaving Johannesburg for Cairo, Egypt
on February 24th, many followed him
to the city's limits and wished him
luck.

This disciple of Weston has just
started one of the most difficult
of his world-traveling—Johannesburg,
north through Central Africa and
Rhodesia, to Cairo.

Destructive Cannibal Grabs
A curiously destructive pest of
Grand Cayman island, the British
West Indies, is found in certain
species of crabs. They not only par-
take of vegetables and fruit, but
their burrows do great damage,
and they fill these burrows with
various kinds of refuse and debris.

A bulletin of Kew Gardens notes
that such utterly useless objects as
kitchen and pocket watches, and
even a broken clock, are often found
hidden away. Eggs from under a
sitting hen are devoured, if not the
hen herself, and so on.

Seedling coconut trees are eaten
that six to ten per cent. of the plants
may require removal. The newly
cleared ground from which the crabs
have been thinned out
Patches of scrubby vegetation
have become covered with
after the complete driving away
of the crabs.

Joseph Dickson, who was employed
by Charles Dickens, died at the age
of 85. Dickens, of course, to his
height and breadth alone—its fruit
and consequently its crop in-
crease more rapidly after the first
ten years.

The dealer in antiques was showing
an old violin to a probable buyer.
"Yes," he said, "that is of historical
interest; that is the identical violin
Nero played when Rome was burn-
ing."

NERVOUS DISEASES

IN THE SPRING

Cared by Toning the Blood and Strengthening the Nerves

Read

It is the opinion of the best medical
authorities, after long observation
of the human body, that nervous
diseases are more common and more serious in the
spring than at any other time of the
year. This is because the system,
after long winter months, may cause
more trouble than the familiar
spring weakness and weariness from
which most people suffer as the re-
sult of indoor life, in poorly venti-
lated and often overheated buildings.
Official records prove that in April
and May nervous, St. Vitus dance,
epilepsy and other forms of nerve
diseases are at their worst, and that
then, more than any other time, a
blood-purifying, nerve-restoring tonic
is needed.

The antiquated custom of taking
purgatives in the spring is useless,
for the system really needs strength-
ening, while purgatives only gallop
through the bowels, leaving the system
weaker. Dr. Williams' Pink Pills are
the best medicine, for they actually
make the new, rich, red blood that
deters in maintaining the system, and
thus cure the many forms of nervous
diseases. They cure also such com-
plications as indigestion, constipation,
aches, poor appetite, weakness in the
limbs, as well as nerve, night
"Pittie" Rice was the first newsmen that
had been privileged to shake his hand.
Rice's real interest, however, was
with prime ministers, General Botha.

Arriving at Johannesburg, Trans-
vaal, one month later—February, 1914

LEPERS AND THEIR REDUCTION

ROUGH ON DISCOVERIES

History shows that many discover-
ies have been made by the subjects
of derision and persecution.
They have often been treated as vi-
sionaries and madmen. It was so with
Harvey, the discoverer of the circula-
tion of the blood, his practice
being lampooned all over the world
in the civilized world. Bartholin, who dis-
covered the lacteals was treated
with contempt and ridicule. Even
Harvey, when he became old, never
believed in the lacteals, but be-
lieved the lacteals all terminated in
the liver.

Harvey saw his old, despondent
lacteals regarded as a madman, an un-
sound speculative genius, and as in-
capable of giving her with judg-
ment, severity for teaching. The
God, was compelled to drink milk
and honey. Phlogar was ban-
ished for his opinions. Democritus
was cast into prison for dissecting a
human body. Every historian knows
that the lacteals were not discovered
until after the death of Harvey, who
was imprisoned for announcing the
motion of the earth. Aristotle's books
were burned for his opinions.

Without treatment, about two per
cent. of cases improve, but in select-
ed cases five out of ten may be made
to show improvement and injections
of the lacteals, which are soluble in
water—have led to apparent cures in
early stages. It is unsafe, however,
to announce any case cured until
five or ten years have passed.

Segregation is necessary, and the
government, where the government
has declined to interfere, the three
hundred lepers of a quarter of a cen-
tury ago have increased to eight hun-
dred, while in the Philippines the
Americans by segregation have re-
duced the number by ninety per cent.

Ripened by Electricity

Urging people can now be ripened
in a few minutes by electricity.
This remarkable discovery is the re-
sult of an experiment with a high-
frequency electric apparatus, made
recently by Dr. T. Thorne Baker, of
London. Dr. Baker's discovery is a
green peach. A spray of electric
light was directed full on the sur-
face of the fruit, and very soon the
whole peach was completely changed
to electricity.

After the current had been turned
off the peach was left for a few min-
utes, and then it was cut open. The
ripening effect had penetrated almost
to the stone, and when tasted it was
luscious and juicy. The cost of ripen-
ing peaches by electricity is exceed-
ingly small, as little electricity is
used.

HIS TWIN BROTHER

TOLD HIM THE CURE

WHY J. C. MAPP PRAISES DODD'S
KIDNEY PILLS

He Suffered From Kidney Disease,
Lumbago and Rheumatism for Five
Years—Now He is a Well Man

Boleyn P.O., Pansyville, Quebec
(Special).—J. C. Mapp, a well-known
farmer living near here, who suffered
from kidney disease for five years,
has now recovered his health, and
statement given to the press he gives
all the credit for his cure to Dodd's
Kidney Pills.

"My trouble started with a cold
about five years ago. Mr. Mapp
suffered from lumbago, rheumatism
and kidney disease. I had a bitter
taste in my mouth, the mornings and I
was terribly nervous. I was de-
pressed and low spirited and found it
difficult to collect my thoughts, while
at the same time I was troubled with
stiffness in the joints. My appetite was
stagnant and I had heartburning that
added to my fears. My twin brother
had used Dodd's Kidney Pills and got
great benefit from them, advised me
to try them. The first two boxes did
me so much good that I got two
more, and they completed my cure.
Dodd's Kidney Pills are the right
remedy for kidney trouble."

Every person who has two or more
of Mapp's symptoms has kidney
trouble. The right remedy for kidney
trouble is Dodd's Kidney Pills. If
you are troubled with any of the
above symptoms, get a box of Dodd's
Kidney Pills, and try them. You will
experience, say your neighbors.

A Motor Razor Cuts Clean
For the benefit of the man with
heavy beard and tender skin a razor
has been invented which cuts the
beard by a chopping action. An elec-
tric motor is connected by a flexible
shaft to the shaft of the safety
razor. On the end of the shaft are
cylindrical cams are provided which
change the rotating movement to a
chopping motion, which is the best
holder. At the end of the holder
this motion is again changed to one
of rotation, so that the razor, by means
of a rickety arm and motion of
the blades also in a chopping action,
causing the blade to cut by means of
blows against the hair.

Thousands of Tons of Dust
According to the estimates of a gov-
ernment expert, who has given much
attention to the study of the remark-
able phenomenon of dust and sand
storms in the arid regions of the west,
every cubic mile of the lower air dur-
ing the summer months contains at
least 225 tons of dust, while in
severe storms of this kind as much as
10,000 tons of dust are carried in a
column in a cubic mile of air. Dust
storms sometimes last for twenty or
thirty hours.

After all, the train was only forty
minutes behind time, so the station-
master was perfectly justified in feel-
ing pleased with himself, the railway
and the world in general.

A solitary waiting passenger was
morbidly weighing himself on an auto-
matic machine, and when he stepped
off if the jovial official proceeded to
talk to him.

"Wonderful thing the railway sys-
tem," he began, "it is a pity to be-
lieve that even the general public is
at last beginning to realize the mar-
velous improvements that have taken
place on this line in recent years."

"That's true," answered the morbid
one, "but the master was delighted,
and he was right to be so. He has
many things constantly in the public
eye as this one."

The waiting master was delighted,
and he was right to be so. He has
many things constantly in the public
eye

T. Leo Wells, Wainwright.

For job printing that pleases the STAR is in a position to do up-to-date work at prices that are moderate. Try us.

YOU CAN'T EARN MONEY WHEN YOU'RE LAID UP

There are a lot of people in this town who cannot afford to be sick. Perhaps none of you can't, for as soon as you are laid up your wages stop and worry and debts begin to pile up. The sensible thing for you to do, as soon as you feel run-down and worn out, no matter what the cause, is to take something just as quick as you can to build up strength and health. Make your self more comfortable and provide against serious sickness.

We don't believe there is any other medicine made that will do as much towards saving your health and thus helping you save your money as Recall Olive Oil Emulsion. It is a medicine that gets right at the trouble and relieves it by toning the nerves, enriching the blood, and giving new strength and health to the whole body. It doesn't do this by means of alcohol or habit-forming drugs, because it contains none. Its strength and health-giving power is due to pure Olive Oil and the Hypophosphites, long endorsed by successful physicians, the one for its food value, the other for its tonic value. Here, for the first time, they are combined, and the result is a real nerve, blood and body-building medicine—a real strengthener that we are proud to tell you about. You don't need to hesitate in using it, because if it doesn't do all we say it will and satisfy you in every way, it will cost you nothing. If it doesn't make you strong and well again, come back and get your money. It will be given to you without word or question. Sold only at the more than 7,000 Retail Stores, and in this town only by us.

WE, THE UNDERSIGNED, agree to close our places of business each Thursday afternoon from Twelve O'clock Noon during the months of June, July and August, 1914, and to close our stores at 6 p.m. continually, every evening except Saturday or evenings preceding public holidays, from June 1st.

Earl L. Cork, Jeweler

NOTICE

IN THE ESTATE OF JOHN F. HORNBERGER, LATE OF GILT EDGE IN THE PROVINCE OF ALBERTA, FARMER, DECEASED.

NOTICE is hereby given that all persons having claims against the estate of John F. Hornberger late of Gilt Edge in the province of Alberta, Farmer, deceased, who died on or about the 11th day of April, 1914, are hereby required to send to Robert Hunter, solicitor, Wainwright, Alberta, on or before the 1st day of July, A. D. 1914, a full statement of their claims and of any securities held by them, duly verified and that after date the Administrator will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been filed with the said Robert Hunter.

Dated at Wainwright, Alberta, this 18th day of May, 1914.
Robert Hunter,
Solicitor for the Administrator,
33-35 Wainwright, Alberta.

NOTICE

TAKE NOTICE that Stratton & Sparks of Edgerton in the Province of Alberta, Livery Keepers, under and by virtue of the provisions of the Livery Stable Keeper's Ordinance claim a lien for the sum of \$120 on the following animals and effects, namely: One roan horse, 6 yrs old, branded on left thigh and on right thigh; One white horse, 12 yrs old, no brand; and one set of double harness; for food, care, maintenance and attendance furnished for such animals and which said animals and effects were delivered to the said Stratton & Sparks by Richard Griffin of Paradise Valley in the said Province, Farmer, the owner thereof.

AND FURTHER TAKE NOTICE that in pursuance of said Act said animals and effects will be sold by public auction at the livery stable in Edgerton aforesaid on Saturday, the 6th day of June, 1914 at the hour of 2 o'clock in the afternoon of said day to realize the amount of said lien.

Dated at Edgerton, Alberta, this 16th day of May, 1914.

Stratton and Sparks.

34-35 Vendors.

Synopsis of Canadian Northwest Land Regulations.

THE sole head of a family, or any male over 18 years of age, who has obtained a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta, the Dominion Land Agency or Sub-Agency for the District, certain by proxy may be made at the office of any Local Agent of Dominion Land, not sub-agent, on each of the following dates:—Six months residence upon and six months residence in each of the two years from date of homestead entry, including the time required to earn homestead patent, and 20 acres extra cultivation. The area of cultivation is subject to reduction in case of rough, scrubby or stony land after report by Homestead Inspector for patent.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a pre-emptible homestead. A homesteader may live within nine miles of his homestead, and may have up to 20 acres of land in excess of his homestead, which he may use for stock raising or other purposes. He must reside six months in each of three years, and must clear six acres and erect a house worth \$300.

W. W. WORY

Deputy of the Minister of the Interior

N.B.—The principal value of this act is that homesteads will be paid for.

A BETTER REMEDY THAN NASTY SALTS

Few people like to take physic, especially salts, because they are so disagreeable to take and because of the griping and pains they cause. Recall Ordinaries enable you to take less physic, and all without griping, purging or excessive looseness. Salts and harsh physics usually give only temporary relief and often leave the bowels worse off than before.

Recall Ordinaries move the bowels promptly, and soothe, tone and strengthen the intestinal system, leaving you healthy and regular in action. They taste like candy, and the movement they cause is as easy as natural, although your bowels are in perfect health and you never had to take any physic at all. We have so much faith in Recall Ordinaries that we urge you to try them with the understanding that, if they do not satisfy you in every way, all you have to do is to get your money back in full. The best bowel remedy made. In vest your money in Recall Ordinaries. You can get Recall Ordinaries only at The Retail Stores, and in this town only at the

No seats reserved

OBITUARY

The death occurred at Mrs. Mitchell's hospital on Saturday morning, of H. V. Nicklin, a well known farmer who resided near Fabyan. Dr. Little was called to his home on Friday and found him suffering from appendicitis. The following morning he was brought to town and died from peritonitis and paralysis of the bowels.

The late Mr. Nicklin was only sick about twenty-four hours. Burial was made on Tuesday from Small Bros., undertaking parlors, interment being made at the rural cemetery. H. Y. Pawling, Fred Hacker, William Hacker, Roy Argue, R. A. Bell, and George Smith, being pall bearers.

The deceased was aged 72 years and had been in this part of the country for four years, coming from Midland, Ont., where he was in the hotel business for sometime. He is survived by two daughters, one in Vancouver and the other in Detroit. The late Mr. Nicklin was well-known in these parts and was highly respected.

SCHOOL EXAMS.

Examinations for Grade IX have commenced at the school. These examinations, as well as those for grades 1 to 7 inclusive will be completed by June 19th, as Principal McLean leaves here on that date for Toileid to preside on examinations for grades 8 and 10. Examinations for grades 9 and 10 will also be held at Wainwright, beginning June 22nd. It is possible that Wainwright may not be a centre for grades 11 and 12 this year, as only one grade 10 and grade 9 students took the examinations here last year.

In all, two grade 12, one grade 11, eight grade 9 and six grade eight students are taking the examinations from this school. It is not known at this time who will preside here. The marking of papers will begin at Edmonton on July 6th. Principal McLean will examine papers from grades 10, 11 and 12 and R. B. Bryden, the papers from grade 8 students.

LOST—Dark Grey heavy overcoat lost from automobile somewhere between Hope Valley and Gilt Edge two weeks ago. Finder rewarded. 34-1/2 V. E. Graham.
